

International Collaboration Research Project on Synthetic Organic Chemistry with UCL Leader: Professor Akio Kamimura, Department of Chemistry

Improvement of international presence of YU and the number of exchanging young scholars from YU

Purpose of the project

Increase the number of international joint papers and joint research projects

Foundation made by the following achievement since YU-UCL academic exchange agreement on 2008

1. Choshu-London symposium at Yamaguchi and London, 2. Student exchange for collaboration research and publication in high impact journal, 3. Intimate relationship among the researchers in UCL and YU, 4. Collaboration and Supporting by JSPS London, 5. Presentation in Japanese diplomatic office.
