

Collaboration Project between Ewha Womans University and Yamaguchi University

Background

From the beginning of Priority Universities for Cooperation Projects, Ewha Womans University and Graduate School of East Asian Studies and Graduate School of Medicine of Yamaguchi University have conducted joint researches and the exchange program (AP AHL: Asia-Pacific Alliance of Health Leaders). With expanded initiative starting 2017, Ewha Womans University and Yamaguchi University will widen the scope of participating students so Engineering graduate students can also get involved in the exchange utilizing feature of Ewha Womans University as the traditional woman's university which established the Korea's first Engineering College. Specifically, Center for Research and Application of Satellite Remote Sensing of Yamaguchi University will accept graduate students from Ewha Womans University. And Yamaguchi University hopes teachers and students from Ewha Womans University will participate in SP!ED (Summer Program for Innovative Engineering Design) which Center for Design and Product Innovation of Yamaguchi University organizes.

Exchange Experience

2013.10 Yamaguchi University designated Ewha Womans University as Priority University for Cooperation

2015. 8 President Oka visited Ewha Womans University

2015.12 Vice-President Miura visited Ewha Womans University

2016.10 Vice-President Miura and Graduate School of Sciences and Technology for Innovation Director Shinji visited Ewha Womans University

2017.2 Vice President for International Affairs and 2 faculty from Ewha Womans University visited Yamaguchi University

Plan

- Joint research and student exchange using JAXA's satellite data in cooperation with Center for Research and Application of Satellite Remote Sensing of Yamaguchi University
- Research and student exchange through the program which Center for Design and Product Innovation of Yamaguchi University organizes
- Student exchange
- Enhancement of collaboration between both universities through President's conference between Japan, China and Korea , and so on.

President Oka visited Ewha Womans University

Vice- President Miura and Graduate School of Sciences and Technology for Innovation Director Shinji visited Ewha Womans University

Vice President for International Affairs, Assistant Professor of the Department of Atmospheric Science and Engineering, and Assistant Professor, Department of Korean Studies, Scranton College from Ewha Womans University visited Yamaguchi University
