

# Priority University Program with KU and CU (including Thai Univ)

- 1993–1995 International Collaborative Research on Thermotolerant Acetic Acid Bacteria (MEXT)
- 1998–2007 JSPS Core University Program (2 Countries)  
「Thermotolerant microbial resources and their application」
- 2008–2012 JSPS ASIAN Core Program (4 Countries)  
「Capacity Building and Development of Microbial Potential and Fermentation Technology towards New Era」
- 2009 Foundation of Center of Thermotolerant Microbes
- 2010–2012 MEXT Strategic Funds for the Promotion of Science and Technology (2 Countries)  
「Development of Economical High-temperature Fermentation Technology Using Thermotolerant Microbes from Tropical Areas」
- 2014–2018 JSPS Core to Core Program (7 Countries)  
「Establishment of an international research core for new bio-research fields with microbes from tropical areas」
- 2017–2019 JST e-ASIA JRP (4 Countries)  
「Development of new processes with thermotolerant microbes for bio-refinery including biofuels」

- 2013– Start Priority University Program with Kasetsart and Chulalongkorn Univs (including Thai Other 23 Univs)
- 2014 1st Priority University Seminar in KU  
[The 20th Anniversary of Core-related Exchange]
- 2015 2nd Priority University Seminar in CU
- 2016 3rd Priority University Seminar in KU
- 2017 4th Priority University Seminar in YU (in schedule)

- Development of tropical bio-resources
- Development of new technologies for bio-refinery
- Young scientist exchange and network formation
